Muhammad Muneeb Iqbal

MERN Stack Developer

+92 3095075940 ◇ muneebiq24@gmail.com ◇ Wah Cantonment, Punjab, Pakistan

SUMMARY

Final semester Computer Science student with a strong foundation in Flutter development, complemented by experience in MERN Stack and Laravel. Skilled in building full-stack and cross-platform applications through academic and project-based work. While my core focus is development, my background in **Business Support** roles has strengthened my problem-solving, organization, and data management skills, enabling me to approach software challenges with a practical, detail-oriented mindset.

WORK EXPERIENCE

Intern   Jun '23 — Sep '23
O2 Geeks   Islamabad, Pakistan
- Built and debugged responsive UI components using Vue.js and Nuxt.js.
- Converted Figma designs into functional, cross-device interfaces.

Business Support Associate   Jun '24 — Present
Mighty Dog Roofing   Atlanta, United States (Remote)
- Managed finances with QuickBooks, AccuLynx, and Roofr.
- Supported project teams with budgeting and resource allocation.

Business Support Associate   Jul '24 — Oct '24
Mighty Dog Roofing   Wichita, United States (Remote)
- Conducted financial audits and cost estimations for projects.
- Streamlined administrative processes to improve efficiency.

Business Support Associate   Dec '24 — Jan '25
Advanced Contractors   Wichita, United States (Remote)
- Ensured accurate record-keeping and compliance with financial standards.
- Supported project teams by tracking expenses and managing budgets.

EDUCATION

Bachelor's in Computer Science, COMSATS University Islamabad   Jan '22 — Present
- Pursuing a Bachelor's in Computer Science with a focus on full-stack development and real-world project experience. Currently building projects using the MERN stack and Flutter with Flask backend.

PROJECTS

Smart Finance - Final Year Project, COMSATS University Islamabad   Feb '25 — Present
- Building a personal finance app using Flutter (frontend) and Flask (backend).
- Enabled users to track income, expenses, and savings goals with real-time syncing.
- Implemented authentication, category-based budgeting, and transaction history.
- Integrated visual analytics for spending insights via an intuitive UI.

AroundYou - Semester Project, COMSATS University Islamabad   Feb '25 — Jun '25
- Built a real-time chat app using MERN Stack and Socket.IO.
- Implemented auth, chat UI, and message storage with React and MongoDB.
- Integrated WebRTC for peer-to-peer audio calling.
