# Muhammad Muneeb Iqbal

MERN Stack Developer

+92 3095075940 ◇ muneebiq24@gmail.com ◇ Wah Cantonment, Punjab, Pakistan ◇ LinkedIn

## SUMMARY

Final semester Computer Science student with a strong foundation in Flutter development, complemented by experience in MERN Stack and Laravel. Skilled in building full-stack and cross-platform applications through academic and project-based work. While my core focus is development, my background in **Business Support** roles has strengthened my problem-solving, organization, and data management skills, enabling me to approach software challenges with a practical, detail-oriented mindset.

## WORK EXPERIENCE

**Intern**                                                                                        Jun '23 — Sep '23
O2 Geeks                                                                                          Islamabad, Pakistan
- Built and debugged responsive UI components using Vue.js and Nuxt.js.
- Converted Figma designs into functional, cross-device interfaces.

**Business Support Associate**                                                                    Jun '24 — Present
Mighty Dog Roofing - Atlanta                                                          Atlanta, United States (Remote)
- Managed finances with QuickBooks, AccuLynx, and Roofr.
- Supported project teams with budgeting and resource allocation.

**Business Support Associate**                                                                    Jul '24 — Oct '24
Mighty Dog Roofing - Wichita                                                          Wichita, United States (Remote)
- Conducted financial audits and cost estimations for projects.
- Streamlined administrative processes to improve efficiency.

**Business Support Associate**                                                                    Dec '24 — Jan '25
Advanced Contractors                                                                  Wichita, United States (Remote)
- Ensured accurate record-keeping and compliance with financial standards.
- Supported project teams by tracking expenses and managing budgets.

## EDUCATION

**Bachelor's in Computer Science**, COMSATS University Islamabad                                   Jan '22 — Present
                                                                                     Wah Cantonment, Pakistan
- Pursuing a Bachelor's in Computer Science with a focus on full-stack development and real-world project experience. Currently building projects using the MERN stack and Flutter with Flask backend.

## PROJECTS

**Smart Finance - Final Year Project**, COMSATS University Islamabad                               Feb '25 — Present
                                                                                     Wah Cantonment
- Building a personal finance app using **Flutter** (frontend) and **Flask** (backend).
- Enabled users to track **income**, **expenses**, and **savings goals** with real-time syncing.
- Implemented **authentication**, **category-based budgeting**, and **transaction history**.
- Integrated **visual analytics** for spending insights via an intuitive UI.

**AroundYou - Semester Project**, COMSATS University Islamabad                                     Feb '25 — Jun '25
                                                                                     Wah Cantonment, Pakistan
- Built a real-time chat app using MERN Stack and Socket.IO.
- Implemented auth, chat UI, and message storage with React and MongoDB.
- Integrated WebRTC for peer-to-peer audio calling.

## SKILLS

**IT Proficiency**    MERN Stack, Flutter, Laravel, Git (Version Control System), Algorithms, Data Structures, Express
**Soft Skills**    Core Analysis, Communication Skills, Teamwork, Problem Solving, Research
**Language Proficiency**    Urdu (Native), English (Conversational)
